OBJECTIVE

Results-oriented software developer with wide experience in system development, I'm the team lead and the system architect, I have been solving business problems through information technology for many years.

Despite the position of the CIO, I always write programs and improve my level as a developer. I'm constantly striving to learn new technologies and look to ways to better myself in this rapidly changing industry.

I have reached the limit in the current organization and I want to reload my career. I want to progress, mastering the most modern technologies.

Now I'm looking for remote work (but relocation is also possible) in a cool team in a complex project with advanced processes to the position of senior backend developer Ruby.

TECHNICAL SKILLS

Languages: Ruby, RSpec, HAML, JavaScript, Visual Basic, SQL, Python, PHP, bash

Technologies: Ruby on Rails, git, Gitlab CI/CD, Docker

Databases: PostgreSQL

Platforms: Linux, Windows

WORK EXPERIENCE

Head of Information Technology, JS Bank Perm, Perm, Russia

Dates: 1993 – present

As a team leader, system architect and developer, I have created an IT system at a universal bank since 1993. It was based on Foxpro/DOS and Novell NetWare.

After the growth of the bank's business, we rewrote this system to MSSQL, *.Net, Visual Basic, WinForms.

I was the main developer of a remote banking system that has been operating since 2000 and serves up to 1,000 clients per day.

As the head of the IT department, I develop IT strategy of our bank, responsible for ITSM-processes, our software life cycle, improve the bank`s business processes.

I have created unique and sustainable system for business processes description and its roles, goals, resources (Ruby on Rails, postgresql), which is used by all our employees. It is an open source project and is hosted on GitHub. Other my projects are hosted on GitLab

My latest projects as a developer are the api-backend for the personal cabinets of bank customers (Ruby on Rails, Nginx, PostgreSQL, JWT) and a local web application for managing access to the personal cabinets (Ruby on Rails, PostgreSQL, MSSQL, sidekick).

Engineer, Perm Center of Automated Control Systems, Perm, Russia

Dates: 1985 – 1993

EDUCATION

Perm National Research Polytechnic University, 1985

Faculty of Electrical Engineering, Automated Systems of management
